

Sept.3-4, 2024

CIF24

Advanced Research and Infrastructure for Material DX

The Chitose International Forum:

The annual conference of the Chitose Institute of Science and Technology. CIF24 offers a platform to present the newest results in the research and infrastructure implementation to advance material development by artificial intelligence, big data collection, and analysis.

Keynote Lecture:

Prof. Yoshinobu Baba, Nagoya University, Japan
“Advanced Research Infrastructure for Accelerated Biomaterials and Biodevices R&D”

Invited Speakers:

Prof. Nik Kovicich, York University, Canada

Prof. Keisuke Takahashi, Hokkaido University, Japan

Prof. Enrique Ezra, Health Sciences University of Hokkaido, Japan

Prof. Kohei Aso, Japan Advanced Institute of Science and Technology (JAIST), Japan

Other speakers will be added continually

Scope:

Material Synthesis
Nano-Fabrication
Measurement and Metrology
Digital Infrastructure
Data Collection and Computing

Submission of Oral and Poster Presentations: starts in 4/2024

Fees:

Conference Registration:

Students: free
Regular Participants: 5,000 yen
Banquet fee: to be announced

Venue:

Main Building
Chitose Institute of Science and Technology,
Chitose,
Hokkaido,
Japan

Hybrid conference:

Oral: Zoom + Onsite

Poster: Onsite only
